Hi Jessica – attached please find a proposal to replace the fire control panel at tide court that has been giving us trouble for so time to recently being off when the fire department was dispatched. The proposal also includes replacing the annunciator for the office area in GB Fulfillment leased area. Both are antiquated requiring replacement for correct functionality. The annunciator continues to alarm throughout the day without reason. Its become a nuisance for the tenant .

Thank you,

Alex Gonzalez

Hey Alex,

I was finally able to track down the correct FACP part number. I will be working on putting the proposal together for you today and tomorrow.

Thank you,

Cody Conrad

Hey Alex,

I was waiting on a response from Travis for the fire panel part number, but never received it. I will have the tech onsite tomorrow get me the part number so we can work on a direct replacement to avoid the permit and submittal fees.

Ron, can you please have the FA tech make sure to get a picture of the panel in Suite A?

Thank you,

Cody Conrad

Good afternoon Alex,

We have a technician set to be on site tomorrow morning at 7:00AM. I will have him reach out to you when he gets to site.

I will speak with Cody about any open work that he was working on for you and follow up.

Thank you

Ron - like discussed, I received a call from Woodland Fire Department regarding the alarm from last night and also that the fire panel is off as well as the panel in Suite A (GB Fulfillment). An HCI tech will be onsite at 7am to assess all.

Cody - any update on the proposal for the panel in Suite A?

Thanks and have a good evening,

Alex Gonzalez
