WORK PERFORMED: Found truck running roughly. Checked all plugs, firing properly, but plugs and wires degraded from long service. Quoted repair. Marcus Baumgartner (2024-03-07)
Quote approved. Travelled to shop. Picked up parts. Returned to site. Attempted to remove ignition leads, but found that degradation has caused them to not come out together. Extracted pieces after they came out in pieces. Uninstalled and replaced spark plugs. Applied dielectric grease. Installed leads. Tested and returned to service.
