Hi Leo,

I have a couple of questions.

1. Did we receive the furniture PO's correctly for the A&E? PO 9009370459 – 2 lines – each with 230 cases order for both lines?

LJ: I'm not responsible for furniture category, so I can't answer this question. You may need to check with furniture PM about this point.

2. My understanding is for the D22 PO's we have received these differently than before for the POE to be PR. Please confirm?

LJ: The attached PO we received with ship to 6087D is correct for POE shipment, the only mistake is about the order quantity as listed in point 3.

3. What are the quantities (in eaches) for each item the order should be written for to make a container? Please review below. I need to know before I get this corrected.

LJ: The QTY listed in "5/8/2024 PI" is the correct order quantity should be written for PO to make full container load.

5/8/2024 PI 4/11/2024 PI

| Pattern | SIZE | QTY | QTY |
|--------------|-------|-----|-----|
| WILSON | FULL | 220 | 180 |
| | QUEEN | 380 | 300 |
| | KING | 150 | 120 |
| LOLA | FULL | 220 | 180 |
| | QUEEN | 380 | 300 |
| | KING | 150 | 120 |
| CENTRAL PARK | FULL | 220 | 180 |
| | QUEEN | 380 | 300 |
| | KING | 150 | 120 |
| SLATER | FULL | 220 | 180 |
| | QUEEN | 380 | 300 |
| | KING | 150 | 120 |

Please get this to me tomorrow and I will try to get all of this corrected.

Clarita,

I have checked the item creation of another order (Mother's Day) that was POE to make sure the items were created correctly.

1. Supplier Vendor Number is 444096221 – as in Mother's Day
2. Warehouse Alignmnet Code is PR – as in Mother's Day and direction from Dimarys in the call
3. The item type is 03 – as in Mother's Day orders.

I am starting from scratch to try and figure this out. If the furniture order came through OK, someone didn't create these orders correctly and it wasn't us. Even if it did come through OK it is still nothing with us but maybe the process they had to get the order built if we have never used NOVA to do this before.

Thank you,

Lorrie Engleman

Hi Clarita,

It seems that we have received the 850 POs for WMPR Black Friday, please find the attached excel sheet and below chart from distribution team for details.

However the order QTY is 600 sets/pattern, it doesn't match the newly approved PI with 4 patterns on 9th May, could you please help to have a double check with PR?

Per conversation with Dimarys on the phone , I will go to the office today and will get some help from Designer about pantones. She does not have access to a real pantone book , so I will show her in video and maybe send her some small pantone samples , so we can decide this matter.

Dimarys also agrees on our new PI with 4 patterns and the quantity that was for Central Park Coral divided proportionally on the other patterns and sizes. The most important is to keep the SIZE RATIO.
