

EEC Publish Version 240905

Accounting Part

1. Create OAE Invoice Detail Report.
2. Add Excel export function on OAE Invoice detail page.
3. Add Status Control for OAE Credit Memo.

Customer Service Part

1. Add column location when export order level excel on Ollix Order List page.
2. Revise to sales order list page.
 - Add query condition Division.
 - Add field Original Order No. on order detail page. Used to record the original PO for replacement order.
 - Add column Original Order No. on export excel file.
3. Allow to quote without pallet information even though PO is shipped by pallet.

Distribution Part

1. Enhancement on Incompatible charge back process.
 - Only generate charge back and send charge back alert email after the Incompatible claim data is approved. Does NOT generate Claim data.
 - Auto generate PO Claim and Adjusted Invoice for Incompatible charge back when charge back is valid.
 - Add Incompatible Carton on PO detail page and Shortage Claim Process page.

EDI Part

1. Create EDI mapping for TUESMORDS.

Warehouse Part

1. Add search panel to Drop Ship Auto Batch Setting page.
2. Add PO Receiving Label Re-Print page. Receiving Team can reprint the Receiving Label on this page, no need to send email to help desk for this.

MP13-708	675716507893	MP-2404114	0000142829	MP-2404114
MP13-709	675716507909	MP-2404114	0000142829	MP-2404114

3. Auto assign main and dotcom Loc to user when save default Loc on Warehouse User Maintenance page.
4. Revise Receiving Offload sheet generation logic to auto add item Loc for dot com Loc, so user does not need to send email to EEC team to add Item Loc.
5. Enhancement on Drop Ship Batch Creation page.
 - Add column Schedule Ship Date in grid, date is based on Location local time zone.
 - Add query condition Error Message on DS batch creation page, user can search why the order is auto removed from batch by the service.
 - Add Excel button on the page.

6. Does NOT need to submit carrier pallet information for Ollix Order, customer service can quote after pallet is built for PO.
 - Still need to finish the pallet build first, but does not need to submit the pallet height data.
 - The Quote API only need carton detail information in the pallet.
7. Revise SV2&SV3 Yard View to include the employee parking and offices.
