Hi Jessica – see attached proposal for pruning of trees and insect spray. I recommend both. Like stated in proposal branches are starting to spill into road way, pedestrian side walks. Trees are looking full in terms of branches and if not pruned branches will begin fall because of weight. Further for some of the bigger trees, branches are low and will begin to hit vehicles roof tops. Leaves will begin to fall soon but want to be prepared for next Spring season.

Thank you,

Alex Gonzalez
