

EEC Publish Version 241024

Accounting Part

1. Add query condition Invoice Type and Customer Group on OAE Invoice List page.
2. Revise OAE Auto Generate Invoice Service to generate OAE Bobtail invoice.
3. Revise OAE Auto Generate Invoice Service to generate OAE invoice for SyncTech.
4. Revise GL General Journal upload logic to include Customer Code and Vendor Code.

Customer Service Part

1. Change Marketplace to Multi-Dropdown list on sales order list page.
2. Create Dropship Order Error Mgt. page, filter error orders by customer and error type for current user.
 - Maintain user group for related error type and customer on Order Error Manager Maintenance page.

EDI Part

1. Revise EDI 856 mapping to send pallet information for Amazon.

Warehouse Part

1. Revise Drop ship picking process to process item with case pack=1 as Inner Full Case for customer specific attribute items.
2. Add query condition Bobtail In and Bobtail Out on OAE Receiving Mgt. page and Receiving Mgt. page.
 - System will auto generate OAE Bobtail invoice for E&E if Bobtail is checked for container.
3. Allow to create bin by uploading excel file on bin master page.

The screenshot shows the 'Bin Master' application interface. At the top, there is a form with various input fields and dropdown menus for bin configuration. Below the form is a toolbar with buttons for 'New', 'Edit', 'Notes', 'Delete', 'Barcode', and 'History'. A table below the toolbar displays bin data with columns for Bin No., Loc, Loc Type, Zone, Aisle, Bin Type, Pick Bin, Pick Sequence, Bin Category, Pick Type, Stage Type, Classification Code, Item Family, Bin Height, Pallet Position, Min (Cube), EPC (Cube), Active, Empty Bin, Empty Aged Days, and Verified Date. Two rows of data are visible in the table.

Bin No.	Loc	Loc Type	Zone	Aisle	Bin Type	Pick Bin	Pick Sequence	Bin Category	Pick Type	Stage Type	Classification Code	Item Family	Bin Height	Pallet Position	Min (Cube)	EPC (Cube)	Active	Empty Bin	Empty Aged Days	Verified Date
000	SD2	Customer Service,Dealer Small Package,Dealer Wholesale,ECom Wholesale,Retail,Wholesale	PW_111		NFC,Special,Billing only,Mixed	N	99999	Bulk	Carton				58.00	0.00	0	0	Yes	No		
153	SD2	Customer Service,Dealer Small Package,Dealer Wholesale,ECom Wholesale,Retail,Wholesale	Shipping		Standard,Transfer,Special,Stage,Mixed	N	99999	Bulk	Pallet	Shipping			0.00	0.00	0	0	Yes	Yes	112.9	

4. Add Stage Bin button on routing sheet Mgt. page. Allow to pre-assign stage bin to related routing sheet for stage picking.
 - Add query condition Stage Bin Assigned.
 - Add column Assigned Stage Bin and Physical Stage Bin in grid.

5. Revise Yard View page to include dropship trailer, wholesale trailer, and all third party containers on Yard Check page.
 - Add Ready Line to drop ship Trailer List page. User can move trailer from Shipping Door to Ready Line on Yard View page.
 - Add Yard Zone on Shipping Door page.
 - Add Door column on Wholesale Shipment Mgt. page.
 - Allow to pre-assign door when wholesale shipment is created. Related Wholesale trailer will display on Yard View page.

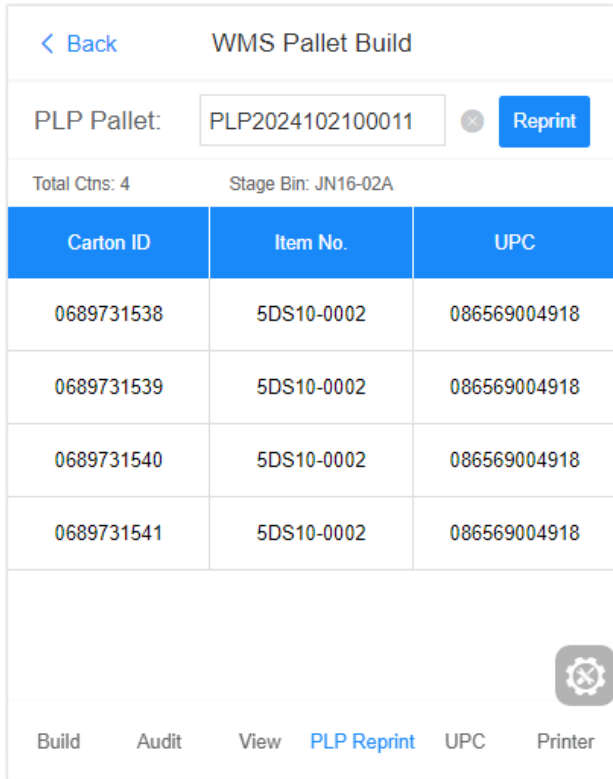

- Show red color if one door/slot has multiple type of container data.

Container No	Shipment ID	Step Name	Offload Ctn	Total Cartons	Empty
YMMU6675441	EE24092217	Arrived	0	1210	No

Parking Position	Trailer/Container #	Seal #	License Plate #	Company	Carrier	Time In	Last Audit Date
126	YMMU6675441	YMAR755059		YANGMING	YANG MING	10/22/2024 12:39:34	10/23/2024 08:42:42

6. Send Empty Container Reminder email when offload is completed or container is set as empty.
7. Send alert email when order is loaded into trailer with different carrier.
8. Add control **Load by Shipping Pallet** on customer profile. Customer like Amazon required customer specific shipping pallet label.
 - Add query condition Virtual Shipping Pallet on PL pallet page.
 - Shipping team has to re-print PL pallet to generate customer specific shipping pallet label after PL pallet is staged. Then load the pallet with shipping pallet label. See point 9 and 10.
 - **Let us know when we can turn on this for Amazon.**

9. Add PLP Reprint tab on wireless app WMS Pallet Build to generate customer specific shipping pallet Label.
 - Scan internal PL pallet label to print customer shipping pallet label.

10. Revise wireless app Truck Load to only load by shipping pallet label.
 - If Load by Shipping Pallet is checked on customer profile, does NOT allow to load by internal PL pallet label.
11. Create DC Bin Layout Diagram page for SD2 and SD3.
