QUARTERLY BATTERY PM SERVICE

Tech to PM battery with corresponding charger.

If any additional battery is located tech does not have a work order for, a data plate picture must be sent to dispatch with a work order request

SCOPE OF WORK: Check electrolyte levels and record specific gravity, documenting high and low cells. Check cell voltages, recording high and low cells to help make recommendations for any service needed. Inspect battery cables, connectors, and contacts, making recommendations for any repairs needed. Inspect corresponding battery chargers for proper operation, including the DC output to help make recommendations for repairs/replacements.

WORK PERFORMED: Battery water level was extremely low
