Dear Edward,

Crown is pleased to present this proposal for a material handling solution designed to help you meet your company's operational goals. Our dedicated team of professionals is committed to providing integrated solutions that deliver a low total cost of ownership and exceptional long-term value.

Crown's award-winning line of lift trucks demonstrates its reputation for advanced product design, engineering, and integrated manufacturing processes. Offering a broad range of forklifts, as well as automation and fleet management technologies, Crown seeks to provide customers with innovative, forward-thinking solutions designed to improve performance and reduce operating cost.

Many top ranked companies choose Crown due to the extraordinary trust they place in the company and its products, as well as the support they receive from the most comprehensive customer support and service network in the industry. Our goal is to be one of your best business decisions.

Thank you for the opportunity to present this proposal and the prospect of supporting your business success.

Sincerely,

Brandon Anderson  
Account Manager

# POWER UP WITH VERSATILITY

Keep your forklift fleet moving with the smart, versatile and scalable V-HFM® Series charger. The V-HFM® can do the work of multiple chargers for a range of battery voltages and battery types including lead-acid or lithium-ion. It's the charger that delivers a powerful, efficient return on investment.

Discover the difference:

### Efficiency

In a small, stackable footprint, the V-HFM® packs more efficiency -- up to 97% -- than many other high frequency chargers. Intelligent design helps reduce charge time and energy costs.

### Intelligent Control

When auto-voltage sensing is enabled, the charger identifies batteries upon connection to apply the correct charging profile, from 24 to 96 volts. Displays with easy-to-read color LED indicators continually update charging status, cooling time, equalizing and watering needs -- for easy, safe and reliable charging.

### Flexibility

Charge virtually any lift truck battery in your fleet, whether lead-acid or lithium-ion, with conventional, opportunity and fast charging methods. Add a module to an available slot to easily scale up for growing application demands.

### Connectivity

Options for remote monitoring and diagnostics with the optional battery monitoring device (BMID), provides access to important battery and charger state of health.

### Crown Service Support

Call on our responsive network of service technicians and motive power specialists to provide product support and consulting services that help reduce your downtime and raise your productivity.

V-HFM® Series Chargers, a key part of Crown's total motive power solutions.
