DESCRIPTION: RFP to replace RTU 9  
CALL TYPE: PRSQ  
TROUBLE REPORTED: Project Speed Quote  
WORK PERFORMED: Checked in with customer. Obtained the roof access. Shut off power to rooftop unit number nine and locked out power. While Crane was being set up, disconnected controls, high voltage, and gas piping from unit. Removed condensate drain. Removed old unit from roof and set new one in place. Wired up, low-voltage, high voltage, piped in gas, and reinstalled old condensate drain. Removed lockout from breaker and restored power to system. Verified proper operation. Clean work area when finished remove old unit from property. WARD;JASON D. on Jun 7, 2025

Assisted lead tech WARD JR;JASON D. on Jun 6, 2025

Assisted with RTU install JONES;TYLER S. on Jun 6, 2025
