Checked lift and found brushes and a spring needs to be replaced
JC Kirkland (2025-09-04)

Picking up parts from the shop
William Long (2025-09-18)

Arrived at customer location and located truck, after inspecting the truck the brushes are good and don't need to be replaced. After troubleshooting I found a wire pulled out of a connector on a controller, put the wire back in and turned the truck on and tested. The truck raises and lowers, travels in both directions and steers, put the truck back together and gave back to the customer. Returning the parts to the shop.
