WORK PERFORMED: Traveled to site. And checked out lift and it has a bad steering ECR
 John Silas (2025-11-26)

Traveled to shop to pick up part. Inquired about job and was told I needed puller. Went to local vendor for tool. Traveled to customer location. Did not do IMR for this location per Patrick. Located lift and looked over lift for parts location. Looked in manual and part did not look correct. Looked in manual. Signal was horrible and called FSM and determined I received incorrect part. Will return part next time at shop.
 Phillip Herzer (2025-12-10)

Picked up repair part from shop. Returned to customers location. Removed steering wheel, disconnected wiring, removed steering shaft assembly. Pressed out old encoders. Installed new encoders. Reinstalled assembly on forklift along with steering wheel. Went into functions and verified encoders are now reading correctly. Tested lift and unit now operates and moves. Reinstalled access panel. Repair complete.
