12/13/22	PPC User 6	The Shipping label must be placed on the side of the carton with the largest area (largest of the 6 sides) and must not be placed over any part of an At Home color photo label or any other At Home required information on the carton. The barcode portion of the Shipping label cannot be placed over the taped seam of a carton without prior approval from Product Partner Compliance. The Shipping label should be oriented to avoid the seam of the carton if possible.
12/15/22	Yvonne Wang	GR-AF-220865 2037398 GR95C-4098 (SKU: 124357629)----- 129CTNS CTN SIZE: 37.20X8.15X7.09 LABEL SIZE:4X6 As manual requesting, our label have placed the largest area. But we can't avoid the seam of the carton. Because label size have used minimum format (4X6"), however item carton size have not enough area cannot avoid. And the manual list " if possiable" not means nessary to avoid the seam of carton. We will confirme in advance once this issue happend again. Could you please help to reverse this deduction? Thanks so much !
