

PO# 15722581 was shipped in containers **YMLU8572351** and **YMLU8872873**. According to the official import terminal records (see attached screenshot), the discharge and available dates are as follows:

- **Container YMLU8572351:** Discharged and available on **7/26**
- **Container YMLU8872873:** Discharged and available on **7/24**

However, the trucking company incorrectly recorded the available date of **container YMLU8572351** as **7/29** in Kohl's Freight Authorization details. This date does not match the official terminal records and is therefore inaccurate.

We request that this discrepancy be corrected, and the freight authorization details updated to reflect the accurate container availability dates. This adjustment is necessary to ensure proper billing and avoid any disputes related to demurrage or detention charges.

Please review and confirm the correction at your earliest convenience.
