Hello,

Reenter in Transplace for the units that are left on your dock. Once the shipment line item page appears follow these steps. Scroll all the way to the right.  
Choose the reason code from the reason code drop down menu: OVERFLOW MULTI STOP  
Type in the Comment Field the following information: 781263813OC3493PFYM

**Note: If the purchase order(s) left on the dock are past cancel, you will need to have them extended. If they are not past the original cancel date at the time you are re-entering then you do not need to request an extension**

Wait until the extension is **visible** in Transplace before reentering information.

Also, if this is an **Overflow Multi-stop** you are required to send the following photos (If you have not already) so we can send those to our compliance team for review.

1. Photograph of the trailer number
2. Photograph of the previous stop to indicate how full the trailer was and how it was loaded
3. Photograph of a GSI-128 Label from the previous stop
4. Photograph of the end of the trailer from the outside

**\*\*Keep in mind that if the above evidence is not provided then compliance will not review this issue.\*\***

Thank You  
TMS Helpline

KOHL'S TMS,

Due to capacity load 781263813 (DC 806, 816, 826, 836, 860, 875, 890). Experiences an overflow, the driver had arrived with 8 pallets in the trailer already and so therefore 1 pallet for DC860 (PO: 11926895) and all of PO 11836269 for DC 806, 816, 826, 836, and 870 did not make it onto the truck. Please review the pictures attached. We will need re-enter these pallets for another pick-up. Please advise.

PO	DC	UNITS	CT	ROUTING CUBE	WEIGHT	PALLET COUNT
11826895	860	114	114	56	807	1
11836269	806 816 826 836 870	2412	402	204	2308	5

Best Regards,

Gagandeep Sahota
