**Interest Charge Calculation**

Your Annual Percentage Rate (APR) is the annual interest rate on your account.

(v) = Variable Rate

Type of Balance	Expiration Date	Annual Percentage Rate	Balance Subject To Interest Rate	Interest Charged	Balance Method
Regular	NA	34.49% (v)	50.00	\$0.00	E

**When is interest charged on my account?**

If you make a purchase, generally we charge interest from the day you make the purchase until you pay it in full.

- You can avoid interest on new purchases (except some promotional purchases) if you have no balance at the start of your billing cycle or you pay your balance in full each month.
- If you did not pay your balance in full in the prior billing cycle, interest will be calculated on your balance from the first day of the current billing cycle until we receive your payment in full, even if you pay your balance in full and on time and make no new charges in the current billing cycle. This interest, plus interest on that interest, will be reflected on your next billing statement.

**New Promotional Financing Plans**

Eligible card purchases may be billed under one of the following promotions: No Interest if Paid in Full Within 6, 12, 18, 24, or 30 months. For each promotion, if the promotional balance is not paid in full within the promotional period, interest will be imposed from the date of purchase at the APR that applies to your account when the promotional purchase is made. For each promotion, after the promotion ends, a 34.49% APR will apply. If a (v) is shown after your APR in the Interest Charge Calculation section of this billing statement, the APR is a variable rate and will vary with the market based on the Prime Rate. Minimum monthly payments are required. See promotional advertising for further details.

**Cardmember News & Information**
