## JBM|EON – Global-Scale Sleep & Furniture Manufacturer

JBM|EON is one of the world's largest and most trusted suppliers of mattresses and upholstered furniture. We are located in the Shunde District of Guangdong Province, neighboring Hong Kong & Guangzhou. Founded in 1983, JBM|EON was originally a modern garden-style spring factory and was acclaimed the "Spring Expert" locally. From its humble beginnings 36 years ago, the company has become one of the global leaders in foam and spring mattress manufacturing, with four facilities covering an area of over 300,000 m<sup>2</sup> and 2,500 employees, and an annual capacity of over 4,000,000 high-quality mattresses. JBM|EON specializes in the designing and manufacturing mattresses, sofa-beds, electric adjustable beds, upholstered beds, metal beds and pillows.

### Expertise & Capabilities

With 39 years of experience in the mattress industry, JBM|EON has become the largest mattress exporter in China, with sales on every continent. Since day one, our primary focus has been providing innovative and premium-quality products. In order to provide our customers with the best prices, we control every step of our supply chain from raw materials to finished goods. Through complete vertical integration, we produce our springs, foam, carton boxes, tape, isolated pads, FR pads, and PE bags. Continuously innovating and controlling our supply chain allows us to keep our production costs the lowest possible, while also cutting out the middlemen, allowing our customers to generate more profit.

Additionally, independent departments of research & development, quality management and manufacturing research have been implemented to ensure consistently premium products. In 2009, JBM|EON has won the award of "Excellent Furniture Export Enterprise" and became the "Eagle Enterprise Award", which recognizes the nation's leading suppliers and receives support from the Chinese government.

## Our business philosophy is Experience. Quality. Innovation.

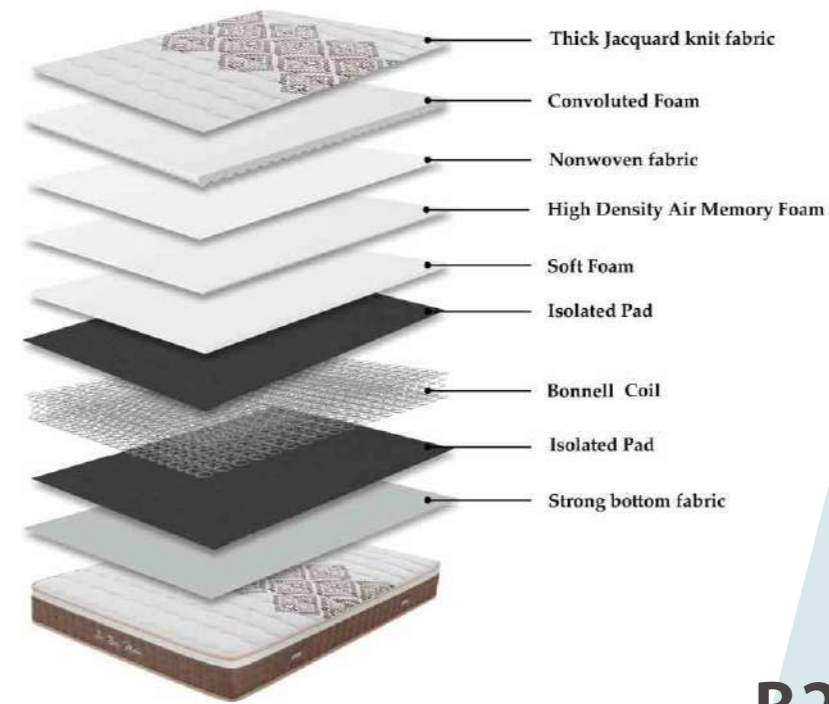

**Experience.** Nearly four decades later, JBM|EON has grown from its origins as a small-scale local factory to the largest mattress exporter worldwide. Our industry expertise and capabilities have allowed us to supply furniture materials to countries worldwide, such as Japan, America and several local spring production plants. With four manufacturing facilities in Asia totalling over 300,000 m<sup>2</sup> and a global distribution network, we have become the largest mattress exporter to Japan among all the global competitors. Our products are exported and sold in retail stores worldwide, such as Canada, America, Middle East, Australia, New Zealand and numerous other countries and regions. As the largest mattress manufacturer and leading furniture exporter in Shunde, our customers worldwide trust us to deliver premium-quality and lab-tested products across the globe.

**Quality.** With complete control over our entire supply chain, we have achieved efficient production, which allows us to consistently produce premium products at the most competitive prices. With the purpose of quality assurance, our company has established an in-house product testing laboratory and an efficient Quality Control team. Our lab is primarily used to test the performance of various raw materials and finished goods, such as foam, spring and nonwoven fabric, as well as stress, elasticity, rebound and VOC testing. Furthermore, our testing is verified and confirmed via a third party from raw materials to finished goods. Our QC team is responsible for examining each manufacturing process. The ultimate goal is to provide quality-assured and first-class products to our customers.

Through continuous commitment to providing high-quality products, we have been certified by ISO 9001 for our Quality Management System, OHSAS 18001 for our Health and Safety Management System, awarded the Global Manufacturer Certificate, CertiPUR-US certified, China Environmental Labeling Product Certificate, as well as numerous other awards. Furthermore, all of our products can meet the United States CFR 1633 and British BS5852 Flammability Standard Requirements.

**Innovation.** JBM|EON has developed into an industrial-scale mattress manufacturer through continuous advancements in our sleep technology and supply-chain. Innovation is key to our business, and we are proud to possess the longest foam production line in China, producing 100m<sup>3</sup> of foam in 11 minutes, proprietary automated machinery and a unique vacuum foaming patent. In order to shorten our delivery cycle and ensure on-time delivery of over 4,000,000 mattresses annually, we've introduced Cell Production Management (Seru Seisan) from Japan. The ability to innovate our supply chain by managing production time of semi-finished products gives us confidence in consistently delivering our products to our customers at the earliest time. Furthermore, many American and Japanese advanced production equipment, highly skilled designers and internationally experienced management personnel have been introduced and invited into our company.

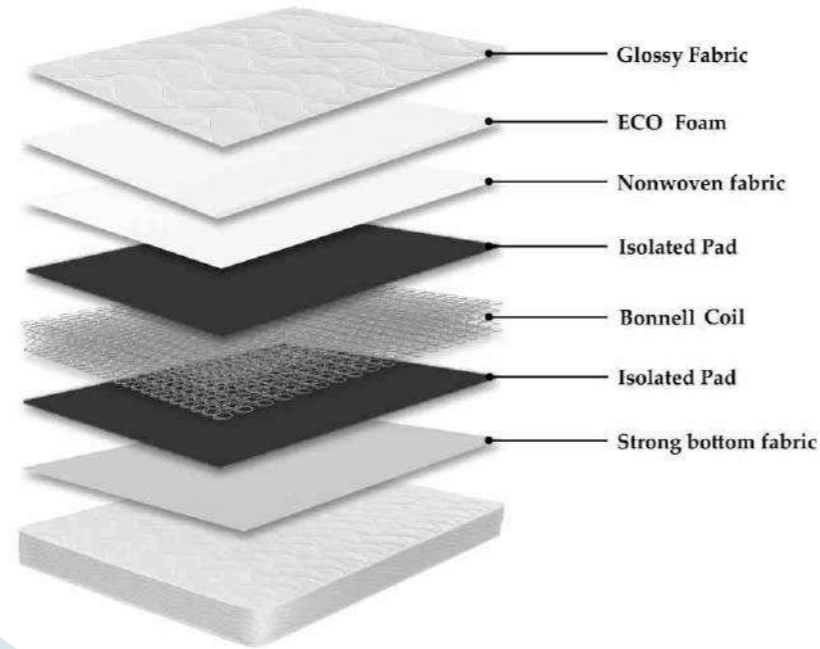

**Going forward,** our main priority is to continue to build relationships with customers worldwide, by providing premium and innovative products with complete customer satisfaction, at the most competitive price. Welcome to JBM|EON, we are looking forward to cooperating with you in the near future.

## B21M1101

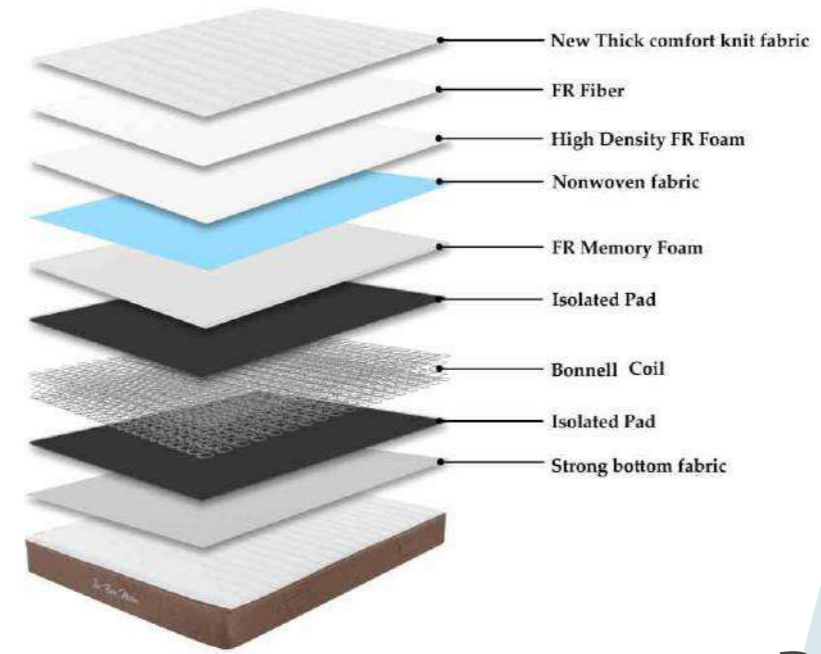

- Soft Jacquard Knit Fabric
- CertiPUR Certified Convoluted Foam
- CertiPUR Air Memory Foam
- Bonnell Spring
- Rolled/Flat Compression

## B21M1112

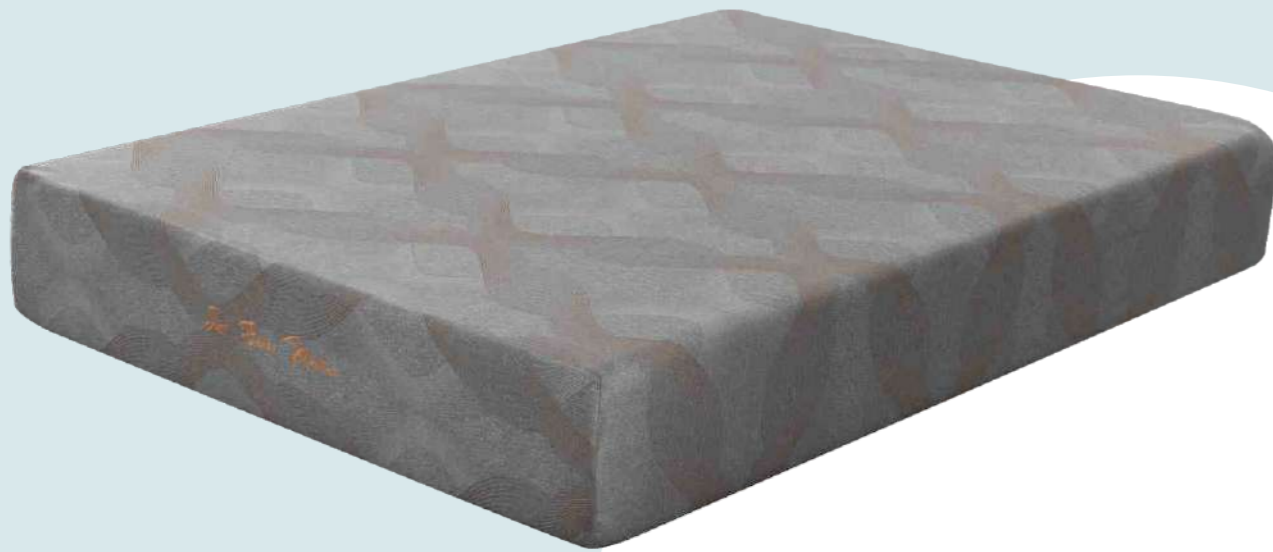

- Soft Glossy Fabric
- ECO Foam
- Bonnell Spring
- Rolled/Flat Compression

## B21M1108

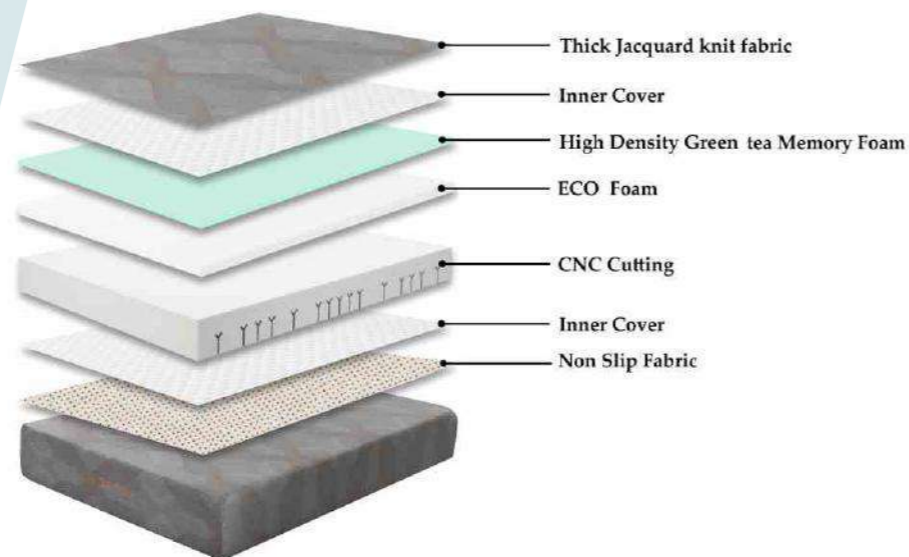

- Soft Knit Fabric
- UK FR Fiber Quilted
- UK FR High Density Foam
- UK FR Memory Foam
- Bonnell Spring
- UK Fire Resistance Standard
- Rolled/Flat Compression

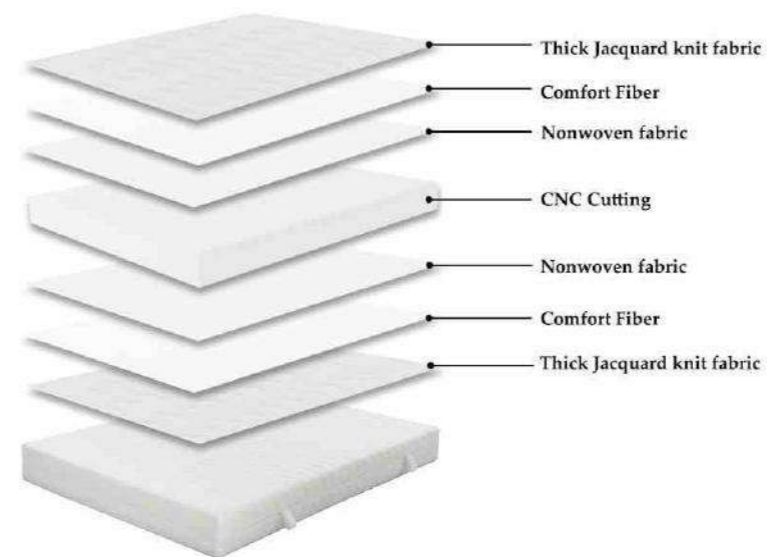

## F32M1109

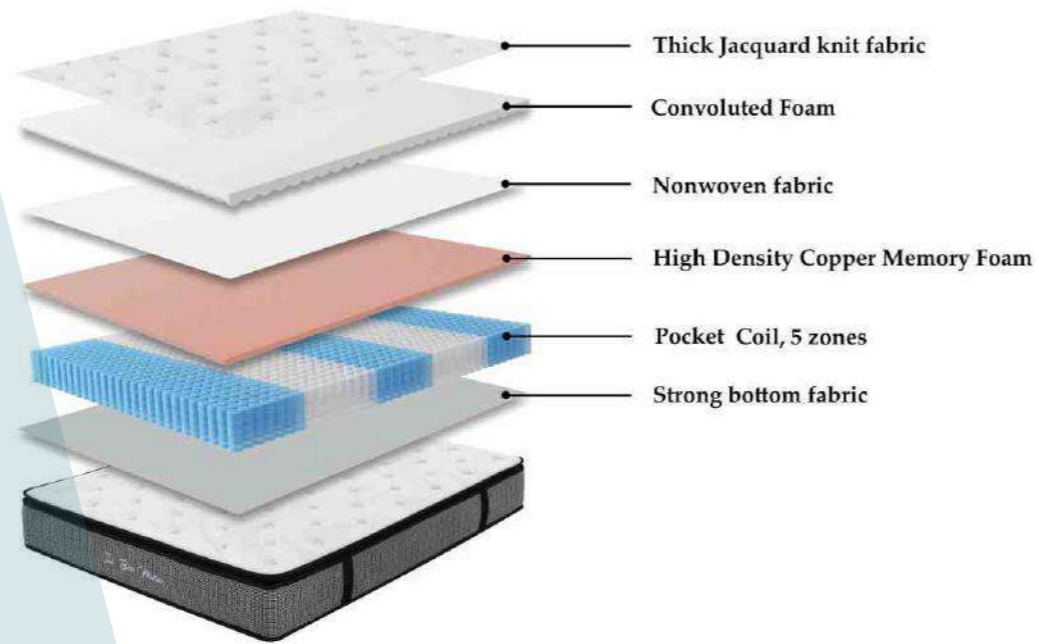

- Soft Jacquard Knit Fabric
- CertiPUR Certified Green Tea Memory Foam
- ECO Foam
- CertiPUR Certified Zoned Foam With CNC Cutting
- Rolled/Flat Compression

## F21M1110

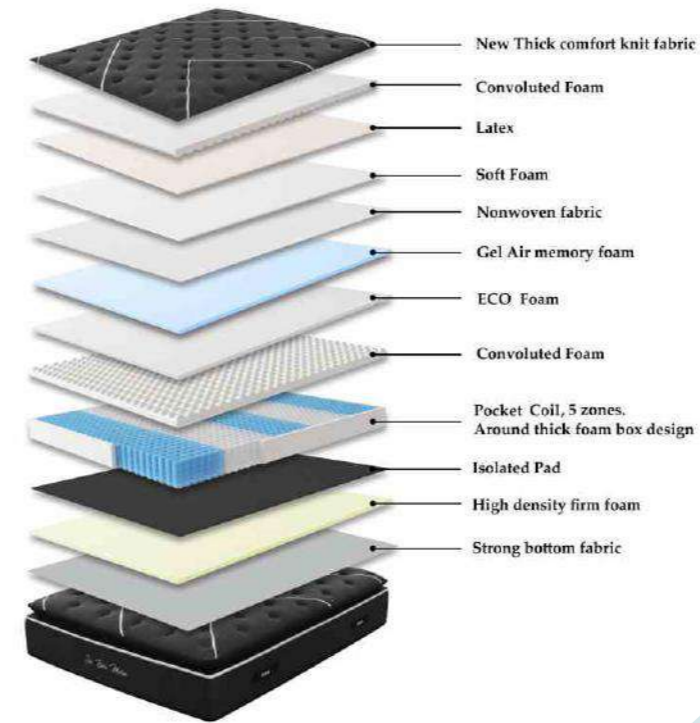

- Soft Jacquard Knit Fabric
- Comfort Fiber Quilted
- CertiPUR Certified Zoned Foam With CNC Cutting
- Rolled/Flat Compression

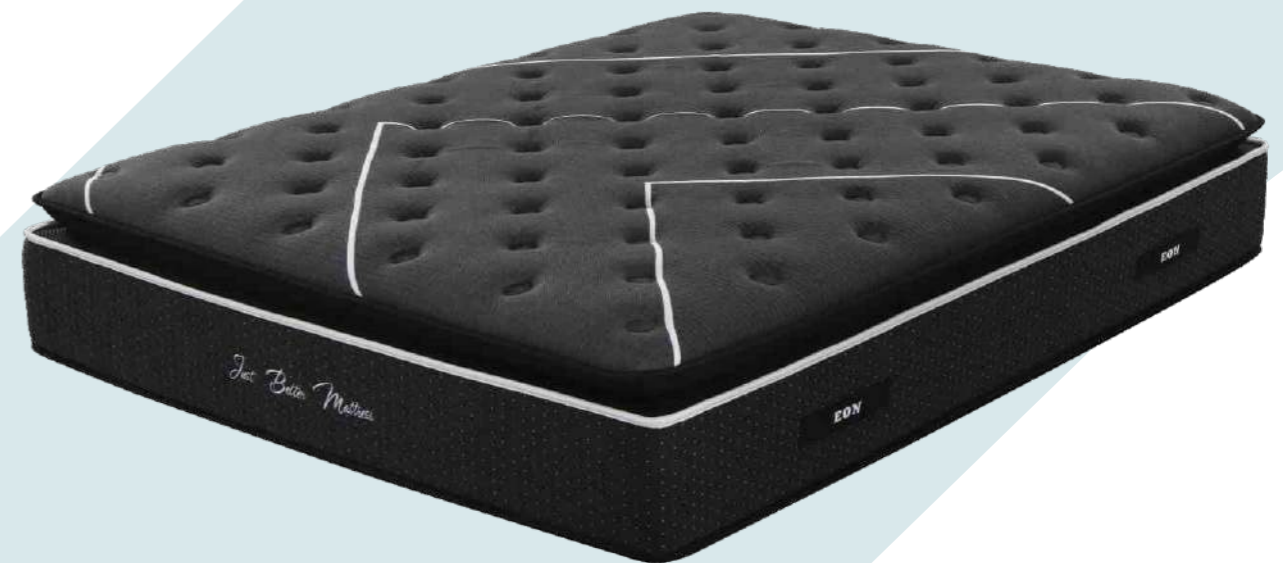

## P21M1102

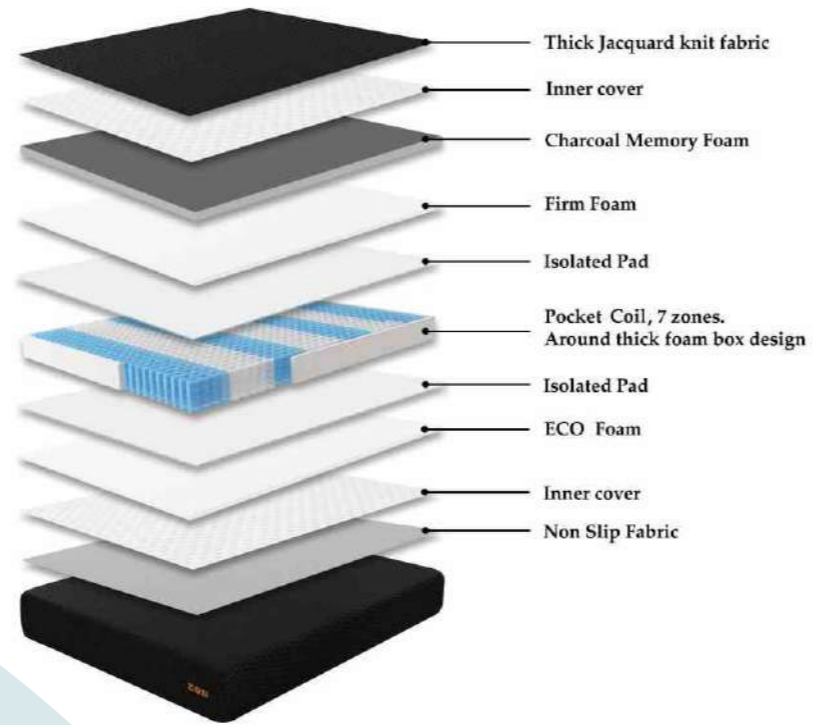

- Soft Jacquard Knit Fabric
- CertiPUR Certified Convoluted Foam
- CertiPUR Certified Copper Memory Foam
- 5 zoned Pocket Spring
- Rolled/Flat Compression

## P21M1103

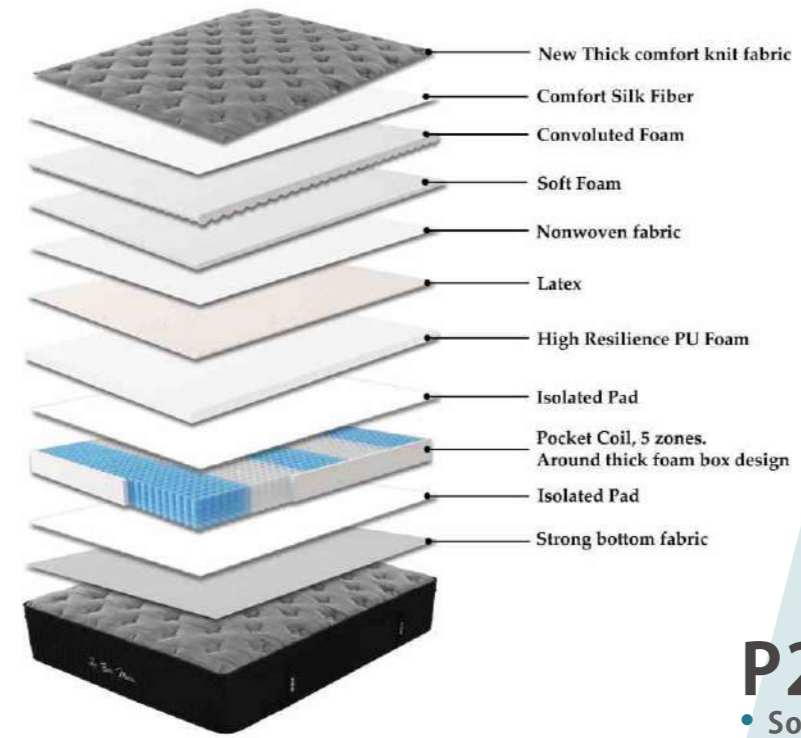

- Soft Knit Fabric
- CertiPUR Certified Convoluted Foam
- Natural Latex
- CertiPUR Certified Gel Air Memory Foam
- 5 zoned Pocket Spring
- Foam encased/foam box
- Rolled/Flat Compression

## P21M1104

- Soft Jacquard Knit Fabric
- CertiPUR Certified Charcoal Memory Foam
- 7 zoned Pocket Spring
- Foam encased/foam box
- Rolled/Flat Compression

## P21M1105

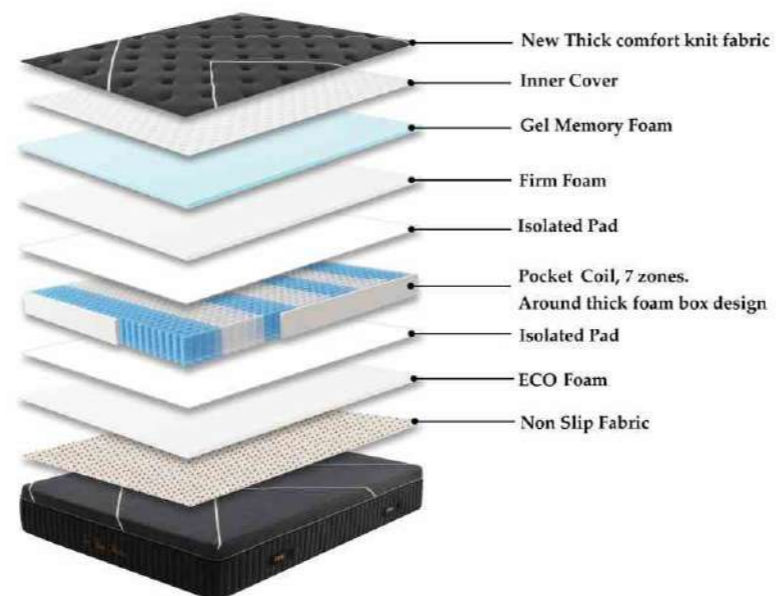

- Soft Knit Fabric
- Comfort Slik Fiber Quilted
- CertiPUR Certified Convulated Foam
- Natural Latex
- 5 zoned Pocket Spring
- Foam encased/foam box
- Rolled/Flat Compression

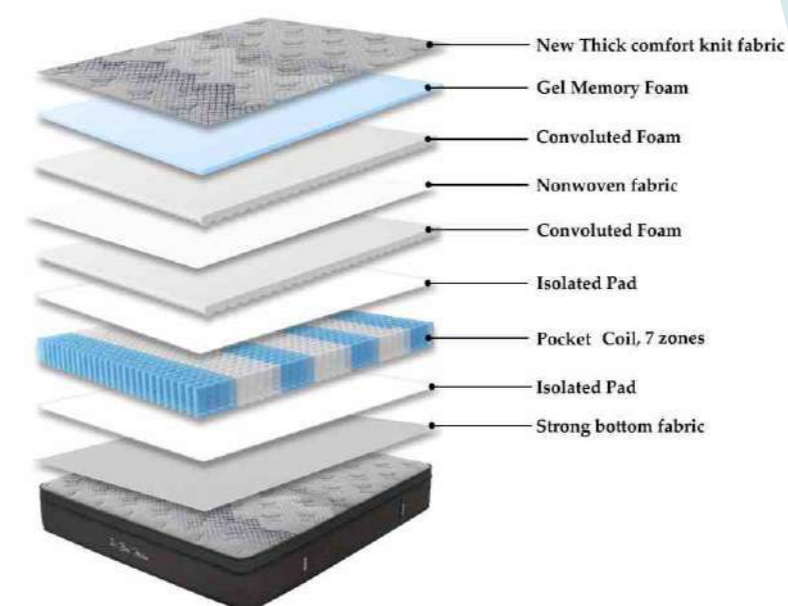

## P21M1106

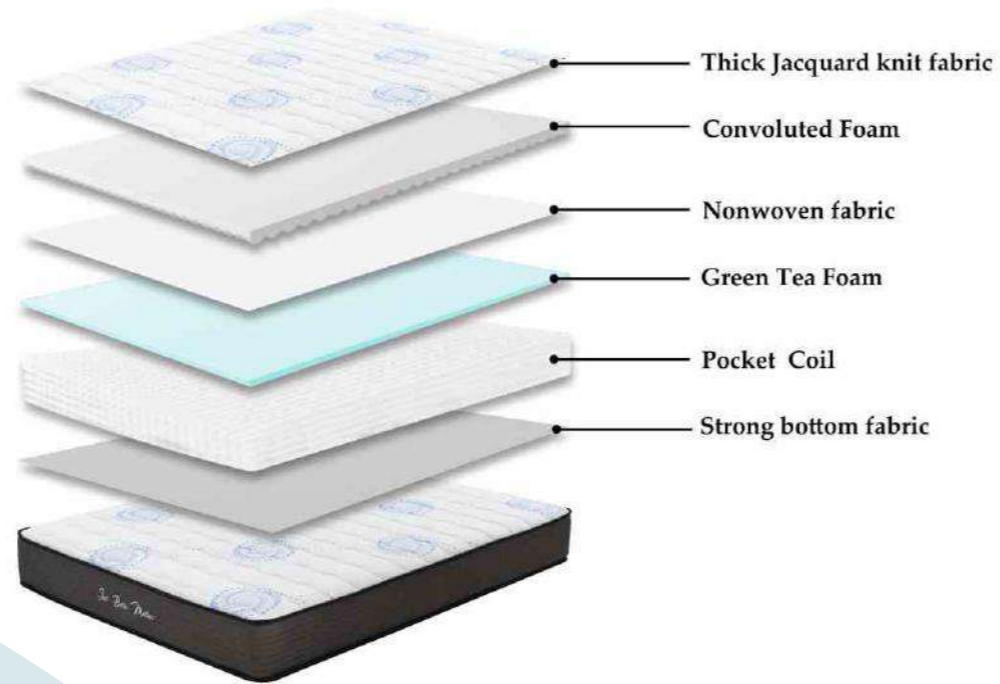

- Soft Knit Fabric
- CertiPUR Certified Gel Memory Foam
- CertiPUR Certified High Density Foam
- 7 zoned Pocket Spring
- Foam encased/foam box
- Rolled/Flat Compression

## P21M1107

- Soft Knit Fabric
- CertiPUR Certified Gel Memory Foam
- CertiPUR Certified Convoluted Foam
- 7 zoned Pocket Spring
- Rolled/Flat Compression

## P21M1111

- Soft Jacquard Knit Fabric
- CertiPUR Certified Convoluted Foam
- CertiPUR Certified Green Tea Foam
- Individual Pocket Spring
- Rolled/Flat Compression

## P2209008

- Soft Bamboo Knit Fabric
- CertiPUR Certified Gel Charcoal Foam
- ECO Foam With Ventilation
- Individual Pocket Spring
- Foam encased/foam box
- Hybrid Design
- Rolled/Flat Compression
