Design Concept :

- Lamp style is two back-to-back bows appearance like gesture of "ceremony" about oriental welcome. Complexity reduced and simplicity maintained for this design, semi-circular lampshades as the head, plus slender and neatly curved pole as the body, whole lamp lines are beautiful and smooth, the stylish shape is novel and unique, simple and generous, with modern sense of creativity.
- The classic texture of matte black/paper white painted usage for colour effect, revealing a real high-quality tactile feeling. The simple and elegant colour matching forms a sharp contrast with the space, so as to show the lamps by distinct spatial perspective, which is vivid and refreshing.
- It adopts the adjustable angle design and double terminal switch design, which allows the light to move as you like. It is convenient to use and humanized design to create a suitable and personalized optical environment. Let the soft and warm light take care of your eyes.
