DESIGNERS  
设计师简介

P28 - P29

Remind:

The main material of this series of products is "natural travertine stone". The fossil effect on the stone is natural pattern. Holes of different sizes and textures like fissuration are the natural features of this stone. There is a slight deviation in the color of different stones. Please buy them carefully if you don't like them.

# DESIGN

## Design Concept :

- Inspired by a total solar eclipse, the moment when the sun is eclipsed completely by the moon. The lunar surface is uneven, the natural texture of travertine is used as the lunar part, the sun is the luminous body, and the light emitted by the lamp is used as the sun part, depicting the beautiful moment of eclipse. The circle represents reunion and happiness, and also means the designer's best wishes.
- The collision between natural travertine and high-quality metal, just the right high-quality texture. In terms of color tone, the harmonious and unified yellow/black series gives a beautiful and comfortable visual effect, creating a strong, warm and beautiful optical atmosphere.

Category : Pendant / Wall Light

Design Style : Simple

Materials : Travertine + Steel

Application Site : Living Room, Study, Lounge, Room, Dining Room, Corridor

Designer : Alger Lin

## Design Concept :

- The appearance is composed of a three-dimensional square column/cylindrical shape, the shape is generous and concise, the lines are crisp and neat, and the layers are rich.
- The external surface texture uses grooved elements, and the unevenness is orderly and unique. Natural travertine, hand-carved, the texture is clearly visible, the texture is hard, and you can feel the vivid visual experience brought by the texture of the travertine.
- Travertine made by nature, with metallic embellishments, there is no sense of incongruity between the delicate and the rough. The popular stripes and dots of different shapes are a mix of retro and trendy, reflecting The artistic beauty of modern decorative style.

# DESIGN

| BRCH9166AB |

| BRCH9166BK |

## Design Concept :

- The appearance is composed of a cone and a ball. The three-dimensional geometric design does not require extra decoration. The appearance is exquisite and simple and shows the taste.
- The performance of high-quality metal and natural yellow travertine is also the encounter of nature and modern minimalist craftsmanship. It is simple and fashionable, and the geometrical combination design is enduring for a long time, showing the beauty of the years and the beauty of modern art.
