

Since the early 1998 year, Kingco has established itself as one of the best home fashion product providers in China. We basically produce shower curtains, shower curtain rods, bath mats and other bathroom accessories. Over a decade of experience with both domestic and international markets, we get a strong financial position which prepares us well for the challenges and opportunities in the future.

As part of our growth and market strategy Kingco is expanding its distribution network domestically and abroad. “Challenge and Innovation” is our tenet. We’d like to be committed to providing our customers with products that are of the best value in the market.
