# "SUNRISE FROM THE SEA OF CLOUDS" *Alabaster*

( 2022 OCT. )

## Design Concept :

- Changbai Mountain in China is a fascinating mountain with mysterious forests, peculiar peaks, and endless treasures hidden. It is the largest volcanic lake in China and the deepest alpine lake in the world. The mountains that stretched to the horizon, surrounded by clouds and mist, and the depths of the looming sea of clouds is the Tianchi (Sky Lake) of Changbai Mountain.
- Uncover the wonderful and magnificent mystery of nature. The marble material has a smooth and delicate tactile impression, transmission of soft light, and natural, pure texture. Marble textures are varied and ever-changing, just like the white clouds floating in the Sky Lake of Changbai Mountain, moving like smoke, as wide as the sea, as white as snow, as soft as water, exuding a strong artistic atmosphere, which is amazing. Marble is a masterpiece of nature's ingenious craftsmanship, and it is also the most exquisite picture scroll that nature has gifted to mankind.
