# MISTY RAIN RIPPLE GLASS LIGHTING

( NOV.2022 )

**BRILLIANT**  
LIGHTING-ACCESSORIES  
HOME GROUP

### Design Concept :

- In the misty south of the Yangtze River, wisps of smoke pervade the sky and the earth, and the drizzle falls gently on the water surface, with faint silver water lines dotted with misty dreams in the south of the Yangtze River. Like a poetic ink painting scroll, feel the romantic artistic conception of Jiangnan .
- The design is inspired by the misty rain, it incorporates the elements of fine water lines. Gray has its own advanced and elegant attributes, and the glass with smooth exterior and water lines inside reflects the silvery ripples, which is full of dreamy artistic conception. When the lights are on, there is a dreamy artistic conception of misty rain, which can better reflect elegant taste.
