About Us

Founded in 1996, Wahana Surya was established by manufacturing industrial concrete pail as our main product.

As time went by, we expanded our product range into household, kitchen, and furniture categories such as food containers, flower pots, chairs, storage boxes, laundry basket, trash can, etc.

We have and always will strive to improve our production processes and service based on the continuously changing market demand, customer inputs and satisfaction, and end-users opinion.
