

AtKove LLP

Technical Textile Fabrics

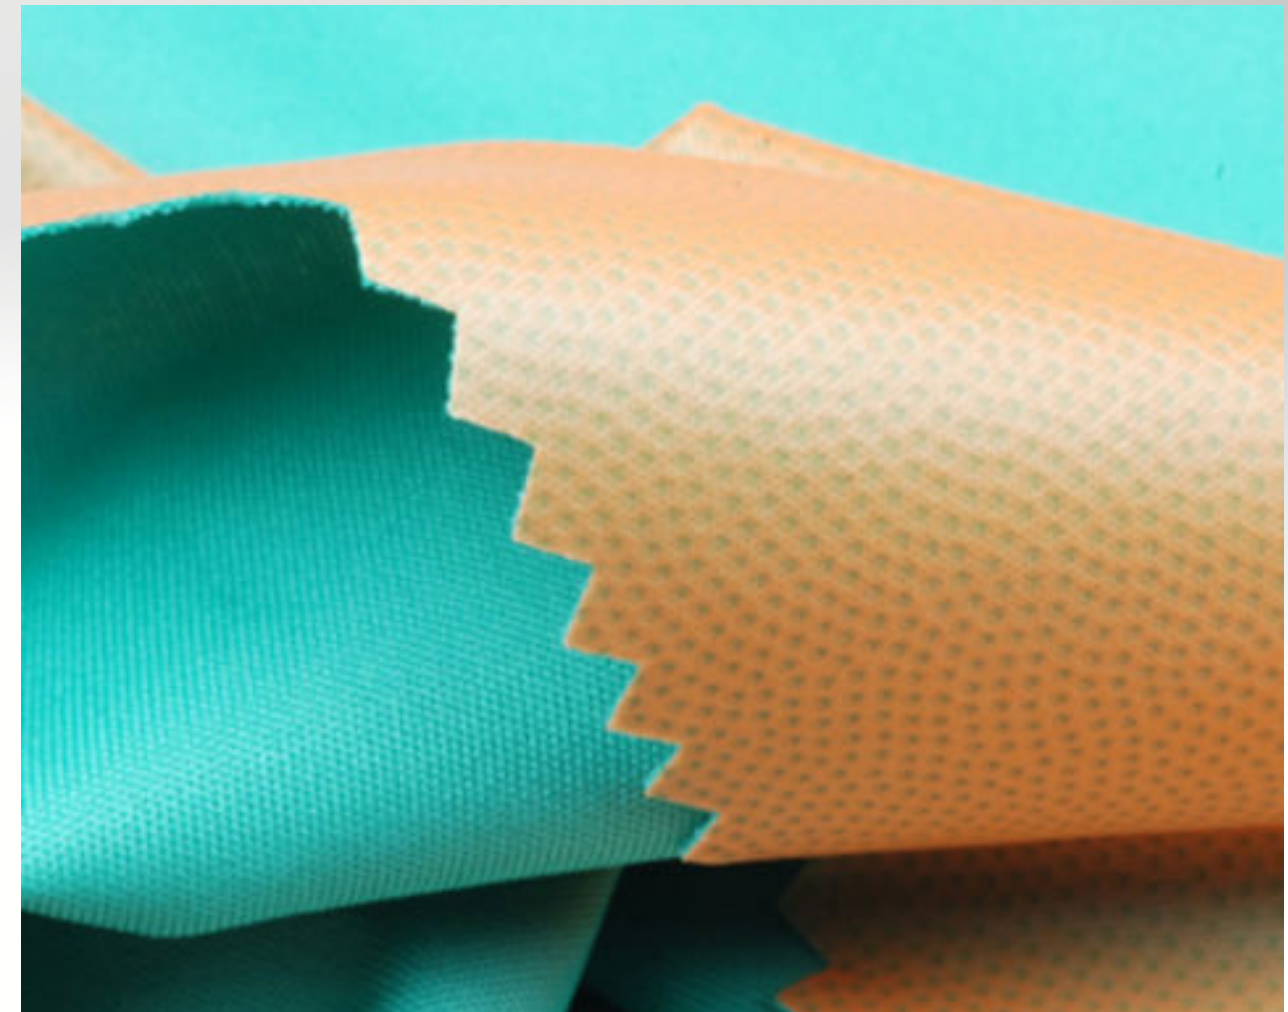

ABOUT US

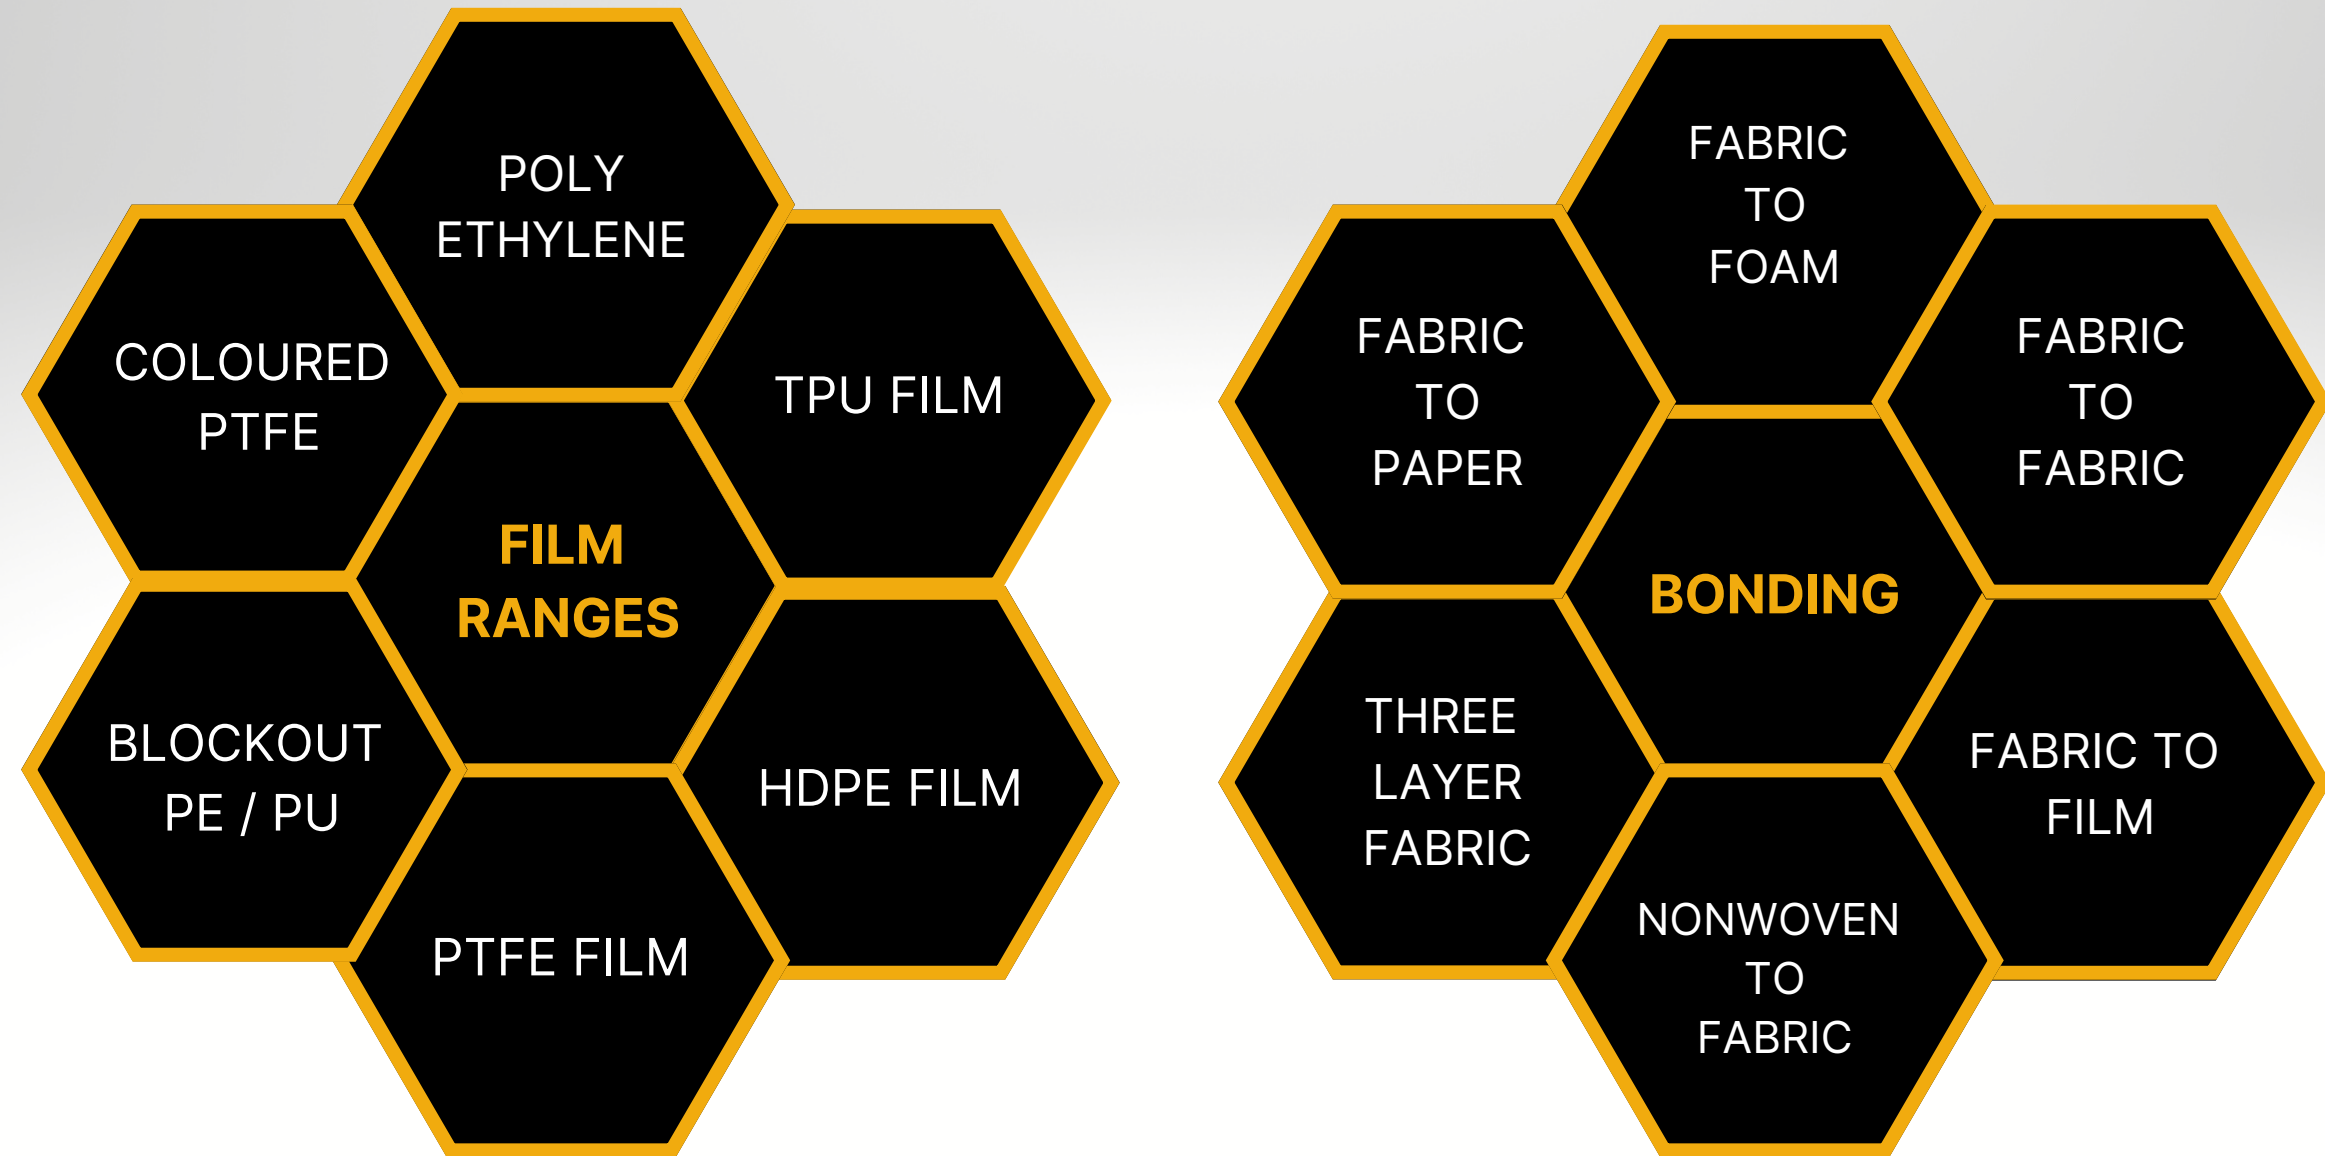

We at AtKove are solution providers for coating, lamination, print media, textile finishing and technical textiles based out of Coimbatore, TN. We are a part of Prestige Impex, with 30+ years of boots-on-the-ground experience in Industrial fabrics based in the northern suburb of Atlanta, GA.

LAMINATION

Textile lamination is a significant technology that increases the efficiency and functionality of technical textiles by joining together one or two substrates with a bonding material like adhesive and film. Fabrics are laminated with a suitable base material or substrates like **PU / PTFE / PVC / PE** membranes with the help of advanced technology and adequate machinery.

FILM RANGES AND BONDING

ADVANTAGES OF LAMINATION

- Product protection & preservation against external elements, wearing and deterioration.
- Increases durability & longevity of the product by retaining its originality and creating water resistance with breathability.
- Ease of maintenance with simple cleaning process.
- Application enhancement of the product.
- Utmost protection for fragile fabrics.

APPLICATIONS

- Bed Protector / Baby Dry Sheet
- Home textiles – Table Cloth, Anti skid mats, Shower curtains
- Automobile & interior upholstery
- Three Layer Fabrics
- High performance outerwear
- Military Wear
- Paper Banners
