WE ALWAYS STRIVE TO ACHIEVE THE GOAL OF OUR CLIENTS AND WORK ON THE PROJECT AS OUR PROJECT.

ABOUT GH TRANS

GH TRANS was founded in 2012 by many experienced experts in logistics industry in Vietnam.

Many years of experience in transportation and international freight forwarding, has helped us master delivery, tracking the status of goods via Track & Trace system globally, understanding warehousing, packaging, multimodal transportation, as well as shipping agency...

We can closely monitor the operation of the shipment and provide timely information to customers about the status of their cargoes.

GH TRANS has licence to clear customs on behalf of owner's name, declaring and implementing of customs declaration, tax payment, delivery and transportation of imported goods.

GH TRANS COMMITMENT

1. By closely cooperating with our customers, we put their benefits and interests above our own benefits.
2. Providing international standard services.
3. Developing logistics solutions to tailor each customer's requests.
4. Our staffs are experienced and well-trained.

ADVANTAGES

1. VIETNAM MARKET EXPERTISE
2. 10 YEAR EXPERIENCE
3. 80 DEDICATED STAFFS
4. 3PL THIRD-PARTY LOGISTICS
5. WORLDWIDE AGENCY NETWORK

OUR VISION

Become one of the leading companies in the logistics industry in Vietnam by providing to our customers a qualified logistics experience not rivaled elsewhere.

OUR MISSION

1. We adhere to the international standard of logistics services to provide our clients the same quality of services they expect globally.
2. Training and coaching staffs to obtain experience in international freight forwarding.
3. We provide economic activities to our community to help it develop and become a better place.

MAIN SERVICES SEA FREIGHT

With a strong network of worldwide and close cooperation with many ports and large shipping companies, we are certified with the ability to provide seamless customer service for sea freight to many countries worldwide.

We guarantee safety in import and export for your company so that you can concentrate on your own primary business

The typical services of **GH TRANS**:

- Providing client transportation services in exports and imports by sea from Vietnam to all over the world (LCL and FCL) and vice versa.
- Quality of service guaranteed by direct routes through a reputable and prestigious network of agents.
- Competitive rates and fastest transit times, always associated with the liability of carriers.
- Door to door delivery.
- Service supports (Add – on- service).

MAIN SERVICES AIR FREIGHT

We have established a department exclusively responsible for air freight in order to meet the demand from our customers. Having long-term relationship with many airlines and global dealers, we can help our customers select the appropriate airlines, with the best schedule, consultation and quote. We offer timely booking, ensure accurate and closely monitor the journey of shipments.

OUR SERVICES INCLUDE:

Transport of exported goods from Viet Nam to all over the world and vice versa for exported imported shipments

We can arrange various services transporting from owner's warehouse to airport or to the receiver's warehouse (airport-to-airport, door-to-airport, airport-to-door, and door-to-door)

CUSTOMS BROKERAGE

GH TRANS is permitted to clear customs on behalf of the owner's name, declaring and implementing of customs declaration, tax payment, delivery and transportation of imported/exported goods. This delegation allows **GH TRANS** to help customers simplify the procedures of customs declaration for import and export.

Our staffs working in the customs declarations are certified practitioners of the General Department of Customs and have many years of experience in this field.

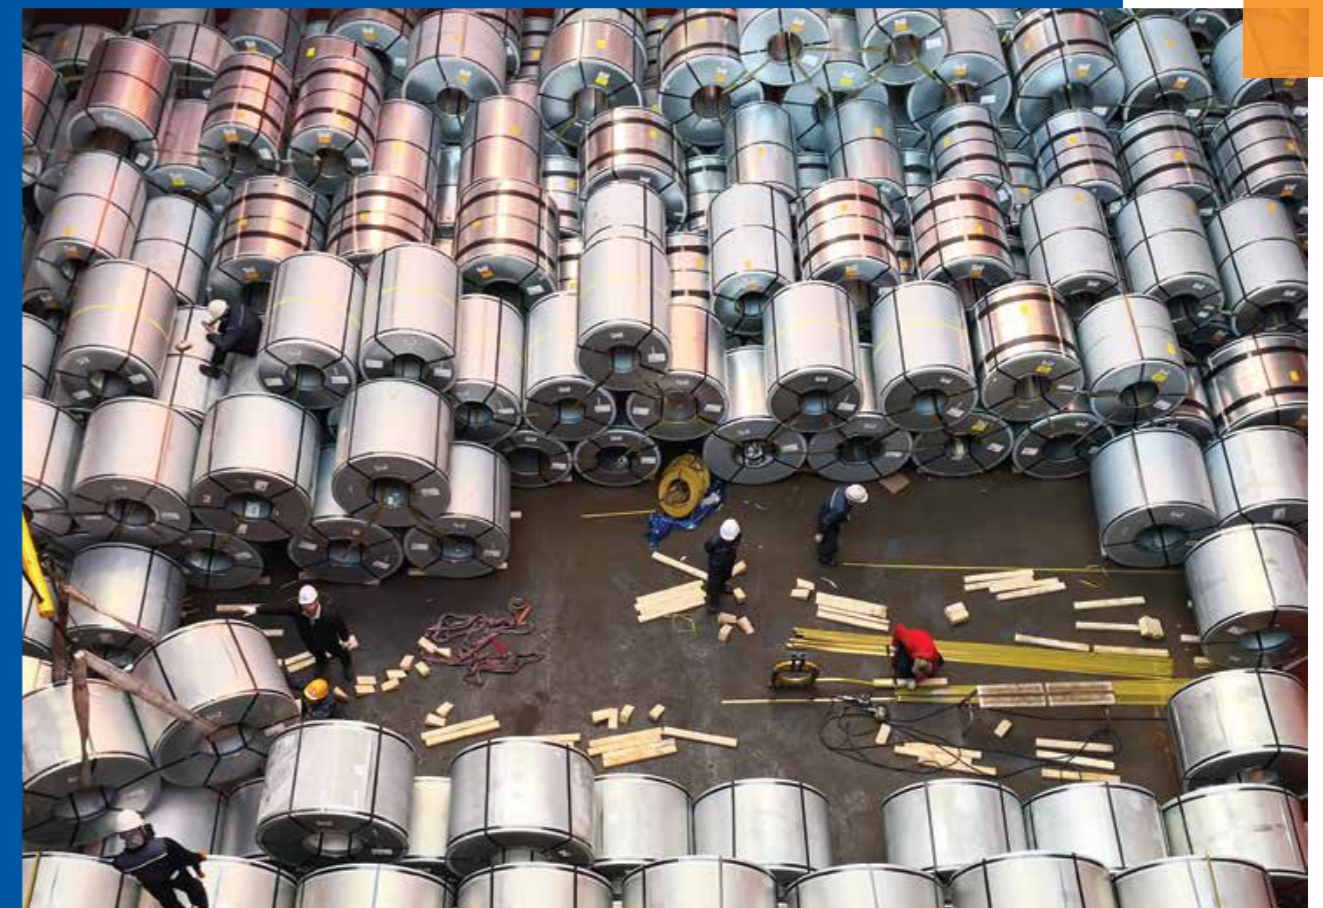

Our services include:

- Prepare a complete declaration and customs forms.
- Complete the procedures at ports and delivery.
- Solve any problem that arises.
- Stuffing/un-stuffing cargo at port/factory.
- Delivery of imported goods from port or airport to our customers and vice versa.
- Delivery of goods through distribution centers.

TRANSPORT OF BULK CARGO

For break bulk cargo (stored under hatches) ascement, fertilizer, foodstuff... we are the professional solution provider of service supply chain from port to consumer's doors. We can arrange packaging, weighing, counting, inspection, transportation, forwarding... With specialized equipment, such as bag funnel, conveyor... we guarantee delivery shipment on schedule, freeing cargo from the ship fast to help our customers save costs.

Also we have many solutions to support customers during peak season when the ship has to wait long time at port, incurring extra costs.

LIQUID/FLEXITANKS HANDLING

Flexitank is a bag made of Polyethylene or Polypropylene. Each bag can carry from 10.000 to 24.000 liters of liquid.

Which flexitank service do we need ?

THE RHINO BULK

The Rhinobulk is our brand name for our popular single layer Flexitank. Commonly used for industrial, food and synthetic products.

THE VINBULK

The Vinbulk is the brand name for our flexitank combining barrier technology that is commonly used for more sensitive products such as wine or commodities that may be affected by taint or oxygen migration during transit.

THE HEATBULK

The Heatbulk is the brand name for our heating system which is fitted with the rhinobulk that bring the commodity to a viscous liquid state (The flexitank is typically loaded with products up to a viscosity of around 2,000cps at an approximate ambient temperature of 23 degree Celsius).

THE STOREBULK

The Storebulk is our brand name of the purpose of temporary storage as well as securing your product inside a container.

MULTIMODAL TRANSPORT

Multimodal Transport also known as international multimodal transport is the mode of transport of goods by at least two different modes of transport, on the basis of a contract of multimodal transport from a point in one country to a point specified in another country for delivery. Multimodal Transport is the combination of modes of transport such as sea - air, air - rail - road... or an appropriate combination of all these methods, ensuring fast transit time and saving costs...
